## NEWS OF THE PACIFIC SLOPE

## DETECTIVES SHIELD BURNS.

Subordinates Assume Blame for Petition.

Ach and Heney Clash During Court Hearing.

Latter Dares Ruf's Lawyer to Call Him.

SAN FRANCISCO, Aug. 6.—The hearing of the case of William J. Burns, chief of the special agents for the prosecution in the bribery-graft case, was cited to show cause why he should not be punished for contempt of court for alleged tampering with prospective jurors by getting them to disqualify themselves, was resumed before Superior Judge Lator today.

Abraham Ruf, at whose instance the charge was brought against Burns, represented by Attorney Henry Ach, and Heney looked after the interests of Burns.

J. G. Lawler and R. C. Schindler, two of Burns' detectives, were on the witness stand. They admitted passing around a petition which set forth the views of those who signed it as being opposed to further prosecution in the bribery-graft case, but declared that they had done so upon their own responsibility and not at the instance of Burns.

Ach and Heney clashed repeatedly during the day, with Burns' counsel putting in a case. Both Burns and Heney dared Ach to place them on the stand, threatening to reveal evidence of attempted bribery involving Ruf's lawyer and former Police Commissioner Popkin.

STREET CAR ACCIDENT. MANY INJURED.

SAN FRANCISCO, Aug. 6.—Coming down a heavy grade on Connecticut street this morning at a dizzy speed and swinging around a sharp curve in the street, a United Railroads electric car flung a score of passengers and the street seriously injured three.

Frank David, shock body covered in bruises and contusions, in critical condition.

Mrs. Mary Allen, extensive lacerations of the scalp and many cuts and bruises.

A. M. Frederick, a constable from Oakland, lacerations and contusions of the face and scalp.

The car was damaged and the passengers were taken to the hospital.

nearing the three-acre mark, arrived at the general hospital early this afternoon, where they underwent an examination and were declared to be in excellent physical condition after their three-day walk. The senior officer, Col. John L. Clem, enlisted in the army at the age of 16, and is now 40 years old. He was in the line of duty during the "Drummer Boy of Shiloh."

DEAD MAN IDENTIFIED. TRAMP KILLED BY HEAT.

STOCKTON, Aug. 6.—Information from the San Francisco Chief of Police to Coroner Wallace today is to the effect that the man found dead in a field, at Tracy was South Foley of San Francisco.

## "RED" ROAST. AMERICAN PIGS. A WRITES MAGON.

LOS ANGELES PRISONER'S LETTER IS INTERCEPTED.

Mexican Anarchist Sends Word to Brother Telling of Plans for Revolution—Angered at United States Because He Finds no Aid Nor Enthusiasm Here.

[ASSOCIATED PRESS NIGHT REPORT.] MEXICO CITY, Aug. 6.—The Mexican Herald today says: A cipher letter from the avowed Mexican revolutionist, Ricardo Flores Magon, who is still in prison in Los Angeles, to his brother, Enrique, of El Paso, fell into the hands of the authorities at the time of the recent arrests in El Paso.

This interesting document has been forwarded to Mexico City and there translated.

The plan was to incite the thousands of factory hands near the city of Orizaba to destroy the big cotton mills and capture the city.

Speaking of American intervention in case the revolution succeeded, the letter as translated, reads:

"We have thought much over the possibility of invasion owing to the revolution. It must be remembered that it has been decided not to circulate the revolutionary manifesto for the precise purpose that Diaz may prepare himself, and we may be able to catch him unprepared. As regards Roosevelt, even should he not invade, he would send his troops to the frontier and we would miss the realization of the part of the plan in not being able to smuggle comrades from the nation, such as the various groups in Texas."

"But that is not all. With the American people and the organized workmen of this unfortunally country, who are not susceptible to agitation, only the unions of El Paso took action. Beyond this, with the exception of Pasadena, there has been nothing of a systematic sort such as a formal campaign in our favor."

"Here and there from time to time paragraphs have appeared in the labor and socialist papers, but there has been no real campaign in our favor in spite of the fact that the collusion of the two governments is flagrant."

"The American people are incapable of feeling enthusiasm or indignation. This is really a republic of pigs."

"Some time the gringos will have to attack us, so if it is to be the people are in rebellion against Diaz. It will precipitate the fall of the dictator because the people will see Roosevelt clearly allied to Diaz to enslave us, to lose our autonomy."

YOUNG THIEF KILLED. Seattle Boys of Good Families 'Rob' Saloon in San Francisco and Fight Police.

[ASSOCIATED PRESS NIGHT REPORT.] SAN FRANCISCO, Aug. 6.—Scott Pounds and Ray C. Baird, two Seattle youths, about 15 years of age, were surprised at work robbing a saloon early today at Fifth and Mission streets, into which they had forced an entrance, and in trying to escape Pounds was shot and killed by Police.

Baird, who, according to the police is the son of a prominent citizen of Seattle, was captured and is now in the city jail.

They got \$150 in nickels from the cash register, but overlooked \$30 hidden under the counter.

"I wish I were dead in place of my friend," said Baird in the prisoners' cell in the police court a few hours later, when he was charged with committing a burglary.

"It was all my fault. If it had not been for me there would have been no burglary and Pounds would be alive."

"He did not want to participate in the robbery. I planned it several days ago, but until last night I could not persuade Pounds to take a hand in it."

UP AND DOWN THE VALLEY.

PITH OF NEWS FROM THE MIDDLE WEST.

[BY DIRECT WIRE TO THE TIMES.] CHICAGO, Aug. 6.—[Exclusive Dispatch.] Two more deaths from sunstroke occurred in Chicago today, although the breezes from the north brought cooler temperatures. Although the heat was greatly modified, there is no prospect of relief from the drought. Today's maximum temperature was 84, and the minimum 73 degrees.

## SLOPE BRIEFS.

Dispute Local Option Bill.

SEATTLE (Wash.) Aug. 6.—At a conference of the forces of the Western Washington temperance leaders, the salient points were discussed in the local option bill to be introduced in the next Legislature. Both the Republican and Democratic platforms for this year contain recommendations for a prohibition measure.

## Thirty Jay Wives Coming.

VICTORIA (B. C.) Aug. 6.—There will be many marriages when the steamer Tona Maru, which arrived today, reaches Seattle, for there are thirty Japanese women, mostly married by proxy, under the old photograph ceremony, who will have to be claimed by husbands before immigration officers will let them land.

## Trolley Victim Dies.

PORTLAND, Aug. 6.—William Mowatt, a bookkeeper, who was run down and badly crushed by a Filmore street car on Sacramento street last Sunday, died today as a result of a fractured skull.

## Exonerated for Shooting Outlaw.

TOMBSTONE, Aug. 6.—Ranger William Speed was exonerated by a coroner's jury for killing William Downing at Wilcox, who resisting arrest, was promptly shot. Downing was a notorious Arizona outlaw who served seven years at Yuma. He participated in the hold-up of a Southern Pacific train near where he was killed.

## Big Log Raft Headed South.

PORTLAND, Aug. 6.—The ocean tug Hercules left Astoria last night for San Diego towing a log raft. This is the third raft started south this summer. The raft contains 8,000, 600 feet of piling, and the tug carries 100,000 feet of lumber and 50,000 shingles.

# "Make-Ready" Sale

## CANFIELD'S

Our Present Stock is Sacrificed to Make Ready for Fall and Winter Goods

This is the first general clearance sale ever undertaken by this store. From time to time we hold sales in the separate departments, but never before have we included merchandise in every department for one event. But there is a reason for this general clearance—our stocks at present are heavier than they should be. Goods for fall and winter trade are beginning to arrive and room is at a premium. Therefore, we decided to inaugurate this "Make-ready" sale—it has but one purpose—to sell goods at such prices that we will have room for incoming stocks on our floors and avoid sending them to the warehouse. You know the Canfield reputation for good values. We again emphasize that when we quote a special price, it is a genuine special price—we guarantee that in every instance. This advertisement but hints at how vigorously we are cutting prices—future advertisements and our windows tell the story more fully. Sale commences this morning at 7:30 o'clock. Be on hand—come early.

### \$8 Lawn Mowers

Here is the greatest Lawn Mower value ever offered in this city. This is a 14-inch Mower, 4 self-sharpening knives, guaranteed to cut every lawn. Made by the Pennsylvania Lawn Mower Company, a sufficient proof of quality. Regularly \$12.50. "Make-ready" price \$8.25.

FAMOUS LANDSCAPE GARDENER DIES IN MOUNTAINS.

Man Who Was Planning Improvements in San Diego Succumbs to Injuries in Runaway—Bureau of Forestry to Conduct Important Experiments.

SPECIAL CORRESPONDENCE OF THE TIMES: SAN DIEGO, Aug. 6.—The death of George Cooke, the well-known landscape architect, occurred this morning at the "Willows," a summer resort in the mountains near Alpine.

Mr. Cooke, a chief engineer for the San Diego City and County Boulevard Committee, was driving through the country viewing roads with an idea of their possible improvement, when an accident to the harness resulted in dropping the wagon pole and frightening the horses. Mr. Cooke was thrown out of the wagon and fell down the side of the road a distance of about fifty feet, breaking five ribs and dislocating a shoulder. He lay where he fell for several hours before being discovered. One of the broken ribs punctured the lung tissue and that, with the exposure, resulted in pneumonia, of which he died. He was a partner of Samuel R. Parsons of New York, the authority on landscape culture, and with him came to plan improvements in this city. Mr. Cooke was about 55 years of age and unmarried.

### EUCALYPTI EXPERIMENTS.

The Bureau of Forestry at Washington will conduct experiments in growing eucalypti in San Diego county. Announcement to this effect was made by A. Clifford, assistant to Chief Pinchot, of the forestry department. While here this week Clifford made examination of the soil conditions, and in company with Local Supervisor Marshall visited a number of proposed sites for tree planting in various sections of the county.

The report that Clifford carries to Washington is said to be favorable to the project. He will return here in the early autumn for the purpose of superintending the planting of the young

### WILMINGTON'S TROUBLES.

The City Trustees of Wilmington, whose attitude has almost destroyed that town's hopes of a direct trolley line to Long Beach, then hurting itself, Long Beach and San Pedro, were in Los Angeles yesterday for a conference with the Pacific Electric officials and are seemingly beginning to change front. On Wednesday night they were again interviewed by the Dominguez Investment Company's officials, after the latter had conferred with the railroad company and received its ultimatum, as was published in The Times yesterday. The Dominguez people stated that the railroad was willing to build from Long Beach to the Dominguez tract only and give a 2-cent fare to that point, if Wilmington continues its present attitude. Such a line, however, would be of no use to most Wilmingtonites and of absolutely no benefit to Long Beach and San Pedro, the two cities that are suffering by the deadlock, the proposed line being intended chiefly for their immediate benefit. The Wilmingtonites also have just heard that the proposed road which they have seemed to look upon as a village street car line, is to be part of a great railway system from Redondo to San Diego, and, if Mr. Huntington ever builds that far south, it undoubtedly will be that there will be a line before very long between Redondo and San Pedro is extremely likely.

### CAR-PELTER-CAUGHT.

After a chase of several blocks, passengers on an outboard Monrovia car captured Max Kriegsteiner, who had thrown watermelons through the windows as the car passed over the Aliso street bridge. There were several other boys with Max, but they escaped. Kriegsteiner was held until the patrol wagon arrived and traffic was delayed on the line for nearly half an hour. Kriegsteiner and the gang had bombarded several cars during the evening. When they threw at the last car about 1 o'clock this morning one passenger, Flower Holmes of Monrovia was painfully injured. Conductor Ezra Utrey stopped the car and with several passengers gave chase.

### MINER'S FLIGHT.

David Schwartz, the Nevada miner who told a lurid story last Sunday about a fabulously rich mine, was taken to the Receiving Hospital last night suffering from delirium tremens. His condition is serious. He will be taken to the County Hospital today.

### GEN. ARMSTRONG will give in The Times Magazine the coming Sunday a dramatic account of the great Andrew Johnson impeachment trial, which he personally witnessed.

FRANK G. CARPENTER's letter in The Times Magazine the coming Sunday will tell of his visit in the wonderful Matabeleland.

FOR good action, read The Times Magazine the coming Sunday.

Open Saturday Afternoon and Evening. Sample Show Ch., 1st Ave., Bryans Stock.

### Lard Laden Stomachs

"Necessity" is the mother of invention. Lard is the father of indigestion.

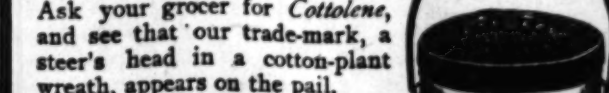

More than half the indigestion in the country to-day is directly attributable to greasy, indigestible food prepared with lard.

Cottolene is the original anti-lard product. It was the first, and it is the best. It is purer, more healthful, and will give better results than any other shortening medium.

Just as the original is always better than the imitation, Cottolene is superior to its imitators. Ask your grocer for Cottolene, and see that our trade-mark, a steer's head in a cotton-plant wreath, appears on the pail.

Cottolene is never sold in bulk; therefore, is a cleanly product, absolutely protected from all the odors and dust to which lard is usually exposed in the ordinary grocery store.

### Nature's Gift from the Sunny South

MINER'S FLIGHT. David Schwartz, the Nevada miner who told a lurid story last Sunday about a fabulously rich mine, was taken to the Receiving Hospital last night suffering from delirium tremens. His condition is serious. He will be taken to the County Hospital today.

GEN. ARMSTRONG will give in The Times Magazine the coming Sunday a dramatic account of the great Andrew Johnson impeachment trial, which he personally witnessed.

FRANK G. CARPENTER's letter in The Times Magazine the coming Sunday will tell of his visit in the wonderful Matabeleland.

FOR good action, read The Times Magazine the coming Sunday.

Fourth Sts.

FRIDAY MORNING, AUGUST 7, 1908.

**AB Blackstone & Co.**  
DRY GOODS  
Attend to your shopping today while there is ample time. Saturday we close at 12:30.

**Waists 75c**  
Worth up to \$1.75  
Today and Saturday morning we will dispose of about a dozen entire lines of seasonable waists at the most astonishing price ever known in Los Angeles for garments of this class.

Of course, seventy-five cents would not, in a single instance, buy the materials of which any one of these waists are made. But cost is of small moment when we make up our mind to clean up stocks. All told, there are twenty or twenty-five dozen in the lot, and not a poor style among them. They are made of fine lawn, tastefully trimmed with laces or embroidery; nearly all sizes in each style for those who come punctually.

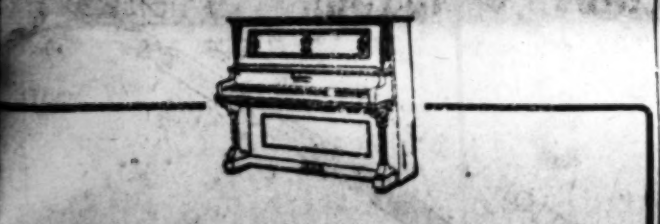

Yesterday the cheapest of these was \$1.00; others were \$1.25, but the large majority of them were \$1.75—and mighty good values at that. Of this latter line there are sixteen dozen. Several styles and ALL sizes.  
Choose today and Saturday morning at ..... 75c

**Children's Dresses For \$3.00**  
It isn't style alone that makes these little dresses so attractive. Tho' that element is represented in full measure, but the splendid materials and careful making and the fact that such things could not be made at home for less. That catches the mother's eye.

Dresses of pink or blue chambray; Dutch neck styles with elbow sleeves and plaited skirts. All sizes, from 6 to 14 years, same price, \$3.00.

**Misses Dresses \$12.00**  
Earlier in the season we sold just such frocks as these for \$16.50. This new lot we bought under price, hence the \$12.00 mark.  
They are princess jumper styles of washable rep.; white, blue or pink; hand embroidered fronts; new gored skirts; \$12.00.  
Another line made of linen; pink, blue, natural linen color or white; full plaited skirt; both waist and skirt finished with broad bands of English eyelet embroidery. This style \$12.50.

**Rug Week on the Fourth Floor**  
Rugs of items here just as good as these.  
\$10.00 Wilton rugs; 37x54-inch; all colors and designs. Sale price, \$17.50.  
\$17.50 Brussels rugs; 9x12; in handsome designs and colorings, for \$12.85.

**\$150, \$200, \$250**  
**\$300, \$350**

At any one of the above prices you can buy a slightly used piano of an old, desirable make. We have in stock many fine instruments at these prices. Some of the cases are not of the latest design—if they were you could not get them at these prices—but the tone, the workmanship and the lasting qualities are there. These instruments are in absolutely A1 condition.

Space does not permit us to give detailed descriptions of the various instruments—that is impossible in a newspaper advertisement. You must come and see the pianos in order to appreciate the splendid values they are.

It is impossible to duplicate our prices, impossible to find such a splendid array of second-hand pianos as we show. Make your selections from the following makes:

**Geo. J. Birkel Company**  
Soleway, Cecilian and Victor Dealers  
345-347 South Spring Street

**You have never tasted real Corn Flakes if you never ate KORN-KINKS**

The food that is all food. Made of the choicest white corn. Steam cooked, malted, flaked and toasted.

Supplies the energy needed to begin the day's work. Crisp and delicious with milk or cream. Your grocer sells it. Ask him.

**The only Malted Corn Flakes.**

**BATHASWEET**  
A Perfumed Laundry for the Bath.  
BATHASWEET RICE POWDER  
Vegetable and Antiseptically Pure.  
All Skin Diseases and Chafing. Scented Soap Powder and Face Powder.

**CREAM PUFF**

**FRUIT CROP STAKED ON A WHIST GAME.**

*Los Angeles Society Woman, Her Husband, and Two Nevada Mining Men Dispose of Fifteen Thousand Dollars, Former Losing.*

THE fiercest game of cards since the wild poker days of forty-nine was played Tuesday night in a summer cottage at Corona Del Mar, near Balboa Beach. It was whist. The stake was a fruit crop worth \$15,000. The players were Mrs. George E. Hart, a beautiful Los Angeles society woman; her husband, a prominent broker; and two Nevada mining men named Nelson.

**Principals in a Dramatic Card Contest.**  
Mrs. Hart and her husband on one side and the Nelsons on the other played whist to decide the ownership of a fifteen-thousand-dollar fruit crop involved in a real estate trade.

The rough-and-ready cow-puncher luck of the Nevada men won the great prize in spite of the brilliant and bewildering game played by the Hart. The Harts had leads and return leads and American and international whist signals at their fingers' ends, but the Nevada men had the trump. It was an exciting, dramatic contest. Although women are always said to be bad losers, Mrs. Hart saw her \$15,000 go without a win. As the winners grabbed the last trick, she gave a little laugh, and said lightly, "Now you are all my guests for a little supper." And it was a fine supper, too.

**OUTCOME OF LAND TRADE.**  
The game was the outcome of a real estate trade. The miners traded a California town for a ranch owned by the Harts. The Harts had ninety-two acres in Simi Valley, thirty-seven miles north of Los Angeles, planted to 12-year-old prunes, peaches, apples, olives and other fruit. It is valued at about \$60,000.

The Nelsons—Hugh W. and George A.—owned the townsite of Winchester, Riverside county, consisting of 250 town lots, 165 acres of alfalfa land, and a two-story brick building. They agreed to swap, and the Nelsons agreed to assume a certain mortgage. But on one point they stuck; they both insisted on having this year's crop of fruit from the ranch.

Hart said the two Nelsons met many times in the office of Arthur G. Munn, No. 202 Mason building. They talked trade and argued about the fruit crop, and between while they gossiped. The talk frequently turned to whist, all being enthusiasts.

Finally Mr. Munn, the agent, said to Mr. Hart, "Why don't you play a game of whist with the Nelsons to settle this controversy about the fruit crop?" Hart's eyes brightened, and he said he would talk it over with his wife. He came back next day and said his wife was willing. The Nelsons decided very briefly. Munn mentioned it to them and one

**GIBSON TO HONDURAS.**

Los Angeles Boy Appointed Secretary of New Legation and Will Leave for Post Tomorrow.

Hugh S. Gibson of this city has been appointed secretary of legation at Tegucigalpa, Honduras. The appointment was made on the recommendation of United States Senator Flint. Mr. Gibson, who is 24 years old and the son of the late Frank Gibson, formerly cashier of the First National Bank of the city, will leave Washington tomorrow. He received his college preparatory education in Los Angeles and then went East, making a specialty of diplomatic law. He is an accomplished linguist.

**COMES AND GOES.**

**DORR SLIPS IN, THEN GIVES UP.**

TAKEN NORTH TO FACE CHARGE OF EMBEZZLEMENT.

Broken Gets Back Home Without Knowledge of Police, Who Were Watching Trains—His Lawyer Introduces Him to Officer, Who Makes Arrest.

Eluding the Los Angeles detectives who were watching for him, Fred Dorr, the broker for whose arrest a warrant has been issued by Judge Cabanis at San Francisco, charging felony embezzlement, came into Los Angeles yesterday, consulted with his attorney, W. J. Hunsaker, and would have left had he been so minded without any but the latter being the wiser.

How Dorr dodged the detectives is a mystery to them. They met every train and questioned every crew, but no man answering the broker's description could even be traced between Los Angeles and San Luis Obispo. Maurice Vaughan, manager of Dorr's office here, says there was nothing unusual about the arrival. He says Dorr came in on the 2:30 train and left it with other passengers, including Lynn Helm, his attorney. Vaughan declares he does not know where Dorr spent his time here, as he did not see him.

Dorr accepted Mr. Hunsaker's advice to return to San Francisco and face the charge, and then participated in a dramatic "discovery" and departure.

About 7 o'clock last evening the officers in charge of detective headquarters were called on the telephone by Mr. Hunsaker, who said if the police wanted Dorr they might get a line on him by going to the Arcade Station at once. Detective Grant Roberts was sent. Mr. Hunsaker entered the station at 7:30, greeted Roberts, excused himself for a minute, and returned with Dorr. He introduced the officer and the broker. Roberts placed Dorr under arrest and hurried through the gate with him to the Southern Pacific train, which left at 7:30 for San Francisco. Dorr had a ticket, but Roberts got on the train without. Before Dorr passed through the gate he was advised by his counsel to "not talk to any one," and checked by the assurance that "everything will be all right."

Mr. Hunsaker said he did not know whether he will go to San Francisco to represent Dorr or not. He will not immediately, at least, he said. Dorr is accused of the embezzlement of \$14,000 from Broker H. H. Norwood of San Francisco.

Acting on the advice of the San Francisco police, Detectives Hook and Ziegler watched the incoming trains yesterday for Dorr. The train on which he was supposed to have left San Francisco Wednesday was due here yesterday morning at 8:40 o'clock. He was not on it.

The noon train, however, brought Lynn Helm, Dorr's general attorney, who had, according to press dispatches, met his client at Santa Barbara yesterday morning. Helm had no explanation to make as to Dorr, and the detectives were again "foiled."

The 2:30 train from the north brought equally discouraging results. According to the most acceptable evidence, Dorr left the night train at Santa Barbara. This is puzzling, for the same train—in fact the only one that could have brought him to Santa Barbara—was searched thoroughly at that point without his discovery. He left Santa Barbara at 10:30 and was due here at 2:30. The police believe he alighted up the road, was met by an automobile, and brought to the city by a roundabout route to a safe retreat, in which Mr. Hunsaker was invited. Dorr did not visit his office nor his home.

Ross T. Hickox, representing a number of Los Angeles creditors of Dorr, has arranged to meet Mr. Hunsaker this morning to discuss the situation. Dorr's office was open yesterday, but there were few visitors. It is expected that he will return to Los Angeles as soon as he arranges his liberty. The bond usual in a charge such as Norwood has made against him is about \$5000. It is understood the arrangements for this were made by long-distance telephone before he went to the train.

**WARFIELD COMING HERE.**

Distinguished Actor Will Play Two Weeks in This City During the Coming Season.

David Warfield is slated for a two weeks' engagement at the Belasco Theater here, commencing probably on Monday, October 12. The actor arrived in New York from Europe yesterday. David Belasco, under whose management he will continue to star the coming season, outlined his plans for the winter.

Warfield will open his season at Denver, playing two weeks at Elitch's Garden. From there he will go to San Francisco, where he will play a five weeks' engagement at the new Alcazar Theater; then he will come here. It is probable that Warfield will be seen here both in his old success, "The Music Master," and in "The Grand Army Man," which made a sensation

**OWENS RIVER RUNS THROUGH AQUEDUCT**

*Nearly Mile Completed, City's Own Water Floating Dredger—Cost to Be Under Outside Estimate—Work for Thousand—Schools Soon.*

WATER is flowing through the Los Angeles Aqueduct. Almost a mile of the canal in the Owens Valley is finished. It is running brimfull; the city's stream is floating the great hydraulic dredger, and power from the municipal plant on Division Creek is driving the aqueduct through the desert from Black Rock Springs to the Alabama Hills.

**First Water in the Los Angeles Aqueduct.**  
The upper picture showing a section of the completed main canal, with the dredge still pressing on. Middle view is of the south portal of tunnel No. 18, Jawbone Division, while the lower photograph illustrates a powerful water jet undercutting the canal bank.

Within six weeks there will be places on the aqueduct for 1000 men. The preliminary work is finished, the project is financed, and the real construction forces of the great Owens River conduit are moving forward with a "tramp tramp," that is shaking the Sierras to their base.

"Any man of family in Los Angeles who desires work at manual labor for \$2 a day can secure a place by applying to the aqueduct office," said Chief Engineer Mulholland last night. "We are building modest homes for the workmen and their families at the concentration points; and we expect to open schools there for the children of the men employed on the aqueduct."

About a mile of the Elizabeth Lake tunnel is finished; the construction work at that point is progressing much more rapidly and at a great deal less expense than is anticipated in the report of the board of consulting engineers.

**SIGNAL FOR ADVANCE.**  
The rejection of bids for the Jawbone division appears to have been the signal for the general advance of the aqueduct forces. Chief Engineer Mulholland says that within six weeks this division will be attacked at fifteen points by expert crews working under the direction of the aqueduct engineers.

Probably the most gratifying feature of the progress of the work is that the engineers have proved to the satisfaction of the Board of Public Works that \$23,000,000 is the outside figure of the cost of the aqueduct. The claims of the knockers that the aqueduct would cost at least \$30,000,000 have been easily refuted.

uses the great water project will be brought to a successful completion within four years and at a cost of less than \$20,000,000.

In round numbers there are 1,000,000 lineal feet in the aqueduct. The estimate of cost is \$21 a foot.

The Jawbone division contains twenty-three miles of the roughest part of the whole aqueduct—and the bids which were rejected on this division average less than \$20 a lineal foot.

The estimated cost of excavating the canal in the Owens Valley proper was \$15 cents a cubic yard; the construction reports from the big dredger show that for the last twenty days the actual cost of excavating has been 8 1/4 cents per cubic yard.

The cost of boring the Elizabeth Lake tunnel is averaging \$1 a lineal foot less than the estimate of the consulting engineers.

**WHEELS AND POWER.**  
By September 1 wheels will be turning in the immense 1500-horse-power generating plant on Cottonwood Creek. This power will be carried by a power line ninety miles to the Jawbone section, and will be utilized there in driving the tunnels through the mountains spurs that block the entrance to the Mojave basin.

Crouches Beside Restaurant All Night Until Found by Policeman With Her Reason Wandering. Unfortunately Carried for and Sent to County Hospital.

Driven insane by starvation, Mrs. Jennie Fowler, 45 years of age, was arrested by Patrolman Dennis yesterday morning and locked up at the City Jail pending an investigation. For more than eight hours the woman had crouched near the doorway of

cheap restaurant longing for the warm food that was being served to the patrons of the place and sick with the pangs of hunger.

The officers arrested her when she was found crouching in the doorway of the restaurant, and she was taken to the City Jail, where she was held until the morning. She was found by Patrolman Dennis yesterday morning.

## THE FAMILY TIE.

## EUROPE NEEDS BREADSTUFFS.

The advance in ocean freights on wheat from American ports on the Atlantic to European ports indicates that there is an active demand for our breadstuffs. Freight goes up because the wheat, being needed, must stand the advance. There is demand for steamers to carry the grain, so those who own the vessels advance the rates.

This means a quick market for the surplus wheat and corn crops in the country, and good prices, too. The West will be full of money; the railroads will be taxed to haul the grain; labor will find ready employment; and farmers will be buying heavy overcoats and underwear for the winter, pianos for the girls and automobiles to take the family to church.

Then will come the election of W. H. Taft [his own man], and, unsmiling, smiling prosperity will be in full swing again from the woods of old Maine to the Dry Tortugas, from the Straits of Fuca to the Isthmus, and all the way across the continent from New York to Los Angeles.

## CONSOLIDATION AND THE WATER FRONT.

A marked change has taken place in the attitude of the seaside cities of Los Angeles county toward consolidation since the City and County Consolidation Commission was appointed two years ago. Because the initiative for this movement then came from Los Angeles city, a number of salt-marsh statesmen discovered that it was all a scheme to gobble up their water fronts and to entice them into our boundaries for the purpose of mauling them for taxes.

Long Beach and San Pedro were so righteously indignant that they rushed to the State Legislature with freeholders' charters so as to make certain that Los Angeles would not absorb them some fine morning while they were out watching the ships in the harbor. They have waited for a year and a half, and no abductors have appeared; and the suspicion is growing in their minds that they committed the mistake, as old as civilization, of looking a gift horse in the mouth.

Chairman Butler of the Consolidation Commission says that during the last three months representative delegations have come to him from Long Beach and San Pedro to ask how they may aid in the consolidation plan that they once opposed so bitterly. Among the moving spirits of these delegations have been some of the former objectors, who have finally discovered that there is a community interest in the water front, and that Los Angeles city's resources can be of great service to the seaside towns.

In San Pedro the revolution of feeling has gone so far that papers have been prepared for a suit in the Supreme Court attacking the validity of the act under which San Pedro is incorporated as a city of the fifth class. If this act of the Legislature is set aside by the Supreme Court, the way will then be open for consolidation under the original plan. At least seven of the eleven representatives to be elected to the Legislature from this county in November will be pledged to consolidation, and most of the pledges will be exacted by the suburban communities.

A majority of the electors of Wilmington seem to favor uniting with Los Angeles, provided the suit over the shoeing strip is decided in our favor. When this takes place Los Angeles will have a water front and a slice of a harbor; the city will be in position to expend \$1,000,000, if necessary, in improving its water front. Naturally the citizens of Long Beach and San Pedro are beginning to wonder what effect this will have upon their respective municipalities.

The suburbanites have possibly discovered, also, that our State and municipal laws are so framed as to discriminate in their favor. Los Angeles city is bonded heavily for its water supply and for other municipal improvements. None of the territory consolidated with Los Angeles can be taxed to pay off this city's indebtedness. If Wilmington were under a borough system or otherwise, the tax rate in Wilmington would be about \$1 on each \$100 of assessed valuation, while that of the old portion of the city will be \$1.50. While paying none of the expense, the new territory would share equally with the old the benefits accruing from our magnificent water system. But, of course, the ultimate consolidation programme is not merely to make Wilmington a part of Los Angeles, but to CONSOLIDATE OUR CITY AND COUNTY GOVERNMENTS.

The spirit of the city of Los Angeles for consolidation; it is not a selfish one, for she would not get so large a share of benefits from it as would the smaller towns. Consolidation is a natural sequence of the brilliant good roads campaign just finished. There is a community of interest among the citizens about the great free harbor of San Pedro that can best be conserved by consolidation. The details of the plan can be left with safety to the committees of the Chamber of Commerce and the Consolidation Commission, composed of representatives from various cities and towns. The property owners in the lone county may be assured that the recommendations of these bodies will be governed neither by politics nor by personal interest. The main aim is to secure economy, efficiency and unity of administration of the affairs of city and county and of the harbor in which every city and town in the county is vitally interested.

## CLEAR-CUT ISSUE.

There can be no more shifting from side to side the most important point in the question of finance. The command is imperative. Choose you which you will serve, God or Baal, Bryan or Taft. The challenge is peremptory: "Under which king, Benjamin?" No shuffling! Where do you stand? Atty-Gen. Benson is definite. The national league in Populized Oklahoma cannot enter into contracts with nature deposits after the manner of the State banks in that new commonwealth. The decision is disconcerting. The people of queer views in that State with queer constitution are of the opinion that the State law is good. The national banks are likely to lose all their deposits.

The Attorney-General's opinion does not touch the merits of the case. It merely holds that the Federal laws which govern national banks will not permit the guaranteeing of deposits in any way which will meet the State law. It does not decide that the Federal laws might not well be modified in such a way as to countenance this new departure in banking.

Mr. Taft, the Republican candidate for President, does settle the question on its merits, in so far as his opinion has weight. In his letter of acceptance that learned lawyer and able jurist says:

"The proposition is to tax the honest and prudent banks to make up for the dishonesty and imprudence of others. No one can be imposed upon by the sound and conservative bankers of the country by this obligation to make good the losses caused by the reckless, speculative and dishonest men who would be enabled to secure deposits under such a system on the face of the proposition. It is a massive block of stone, or a low, modest tablet, all bore the names of men once of so great power in the city. Here they lay as thick, as close together in their dreamless sleep, as their places of business had been a generation before. Down in the city there was a small, very small, remnant of those who were neighbors, friends, associates of the visitor and of the dead. Strangers in strange cities have felt the oppression of their loneliness. But there is no loneliness

of the fitness for national control of a party which will commit itself to a scheme of this kind, without a sense of responsibility as to its practical operation."

Mr. Bryan talks about banking from the "standpoint of the depositor, not of the banker." That is what Mr. Taft is talking about. So we have the issue fairly joined. Republicans hold with Mr. Taft; Oklahomans Democrats with Mr. Bryan. Get on your own side!

## THE GREAT UNCERTAINTY.

The greatest uncertainty in life is life itself. We know not what minute we shall be snuffed out like candles. In this country, alone, fully 500,000 persons meet violent deaths every year. The mines, the factories, the railways, automobiles and every form of industry and pleasure hide their sinister threats against us.

A man may rejoice in robust health today, and tomorrow a microbe flies down his throat and kills him as easily as a red ant is crushed under the wheel of a steam roller. While good digestion attends on appetite, ptomaine poisoning lurks in the viand. We may even court death when we kiss the lips of a pretty girl—a feat which is fraught with more or less danger, anyway. Going or coming, asleep or awake, we are within the great shadow, always. Whether we are destined to live another hour or another century, we have not the slightest means of knowing.

Happily for us all, however, we give no thought to the constant dangers that menace us. And more happily still, we are kept from the knowledge of the appointed time when we must lie down with dusty death and leave behind us this bright world and those therein whom we love. And yet, more happily than all else, we have the belief, or at least the hope, that our sojourn on this earth is only the beginning of life. Thus, when a friend or a kinsman dies, we say: "He has gone to another country."

But the trouble with a great many human beings is that they seem not to realize the uncertainty of life, and go their ways as though they think they shall live forever. As a consequence of their blindness they become selfish, and what we might call "hogzish." They would monopolize things and are greedy to the point of criminality. For it is, indeed, a crime for one man to take more than his fair and honest share of what the good God intended for us all.

It is inconceivable that any one among us should waste his little day of life striving for glittering baubles and missing the real things of existence. And the real things are only the things that bring us peace and happiness and contentment—the love of friends and family, the knowledge of having done right and of having taken only as much as we needed without distressing those who also needed. It is only in these ways that we can turn the uncertainty of life in this world into the certainty of a welcome at the door of the life to come.

## LONELINESS OF THE AGED.

Senator William E. Allison until the moment of his death could look back on half a century embracing the history-making epoch of our nation. The anti-slavery agitation, the Civil War, the days of reconstruction, days of business depression and of great progress, the different protective tariff laws, the war with Spain, the freeing and pacifying of Cuba, the war in the Philippines, the assassination of Lincoln, Garfield and McKinley, the anti-trust struggle, from the Sherman act to the present strife to bring about perfectly fair opportunity for all in business—all passed along, a stately pageant of reform, before his eyes. He was part of it all, too.

Had he set down to think, as no doubt he often did, about the past, three or four familiar faces of his earlier days in Congress would rise up before his eyes. Senator Frye of Maine (now longest in continuous service), Senator Teller of Colorado, former Senator Stewart of Nevada and former Senator Henderson of Missouri are about all that are left of those old war days. Senator Platt of New York is a recent figure in Congress compared with these veterans. Nearly all the earlier colleagues of Senator Allison passed away years ago. Blaine has been asleep for twenty years.

A man visited a city where his home had been thirty years ago, and where he used to know almost the entire population. Passing through the streets, how often only strange faces met his gaze. After a long round one day a friend of old times, a boy then, a judge now, led the way to the great new cemetery at the city's gates and said as they entered: "Here is where most of your friends are." So it was. Tall monument, or massive block of stone, or low, modest tablet, all bore the names of men once of so great power in the city. Here they lay as thick, as close together in their dreamless sleep, as their places of business had been a generation before. Down in the city there was a small, very small, remnant of those who were neighbors, friends, associates of the visitor and of the dead. Strangers in strange cities have felt the oppression of their loneliness. But there is no loneliness

many kindly eyes waiting to beam on him when he returns. The sweet tones of hearty welcome would greet him, and the sweet companionship of loving hearts will be his gain.

But those who sleep on the hillside will never open their eyes again to greet a friend. Their voices are hushed; their hearts throb no longer. The very aged have no place to look back to save this city of the dead, where the sound of footsteps, or the vale, vale of friendship wakes no echoes or response.

How beautiful is the devotion of Old World races to the aged! If you ever taught a class in school and corrected the letters that little Hebrew boys and girls wrote to their aged parents or grandparents, you would know it. Fortune may have smiled on these exiles from afar in this great land of freedom and of equal opportunity to all. Wealth and luxury may be the lot of these successful business men. The children may be highly cultivated, with a mastery of many accomplishments. They may wear rich robes, and in the full enjoyment of all money can buy. Grandma may be oh, so plain, so lowly, so lacking in the graces that education and accomplishments bring. She may be so very "common." But not to these dutiful Hebrew children, around whose hearts still cling the fragrance of primitive days. The old woman is grandma. That is enough. She is a lady and much more than that in the eyes of her devoted grandchildren. In the eyes of her children she has no defects. All perfections of character are hers, and there is not a bit of pretense, of hypocrisy, about this. This reverence for the aged is as genuine a sentiment as the human heart ever bears.

How beautiful it all is! The aged are so lonely, so friendless, outside their own fireside. All their friends are asleep in widely-scattered places. The days when they were young, vivacious, petted, courted, made much of, come back. The eyes that beamed on them are closed. The hands that grasped theirs are cold. The lips that smiled on them have withered to decay. The hearts that beat for their joys and sorrows are still. Oh, how lonely, how forlorn, are the aged, unless there is comfort and companionship at the family fireside where children still love their parents and have taught their children to reverence the grandparents!

We know more about railroads and flying machines than Moses knew. But the man who implanted in youth reverence for age did more for the world than all the great inventors of all the ages.

## NEW MEXICO'S POLITICS.

The people of New Mexico have always been regarded as addicted to a large majority by the way of Statehood. What shall they do? Persist in their perverse opinion and stay out of the Union, or modify their political views and come in? The question is said to be practically answered. They want Statehood more than they want free trade, free silver, or any other political notion. Statehood will be of more advantage to the people of New Mexico than any brand of politics at Washington.

Do not rise up rashly and condemn the Mexicanos Nuevos. They are doing within the sphere of their State what we all do in the wider sphere of the United States. They are voting for their own best interests. Their opinion is that by Statehood their interests will be advanced, and they vote for their interests. That is what sensible people always do. They sit down and reason that this or that policy is the one under which the country prospers best; what is the best for the whole country is usually best for each one of us.

So when Samuel Gompers tries to barter away the votes of wage-earners for the right to commit violence and break laws, the workmen realize that they need the protection of the law and of just courts, and that they need the protection of stiff tariff against imported goods. They vote their own interests when they vote for an independent judiciary and for tariff protection.

The Expresslet is daily embellishing its editorial page with selections from the editorial columns of The Times. Splendid! The Expresslet never before published such excellent reading matter. Every word of these quotations from The Times is sound and well put. Especially does The Times now commend its own previous utterances against the political bosses. The Times will furnish the Expresslet with further articles for quotation, aimed at the political bosses—especially bosses of the Lisner brand, the worst of the bunch. The law and the lawless boss. Why does not the Expresslet reprint some of The Times' able denunciations of millionaire rebaters and millionaire race track gamblers?

## RESOLUTION.

(From Judge.)  
Breathes there a man with nose bright red  
Who never to himself hath said:  
"This is my last. Right here I'll stop

## HOROSCOPE.

Friday, August 7, 1936.

On the undertakings his fortune. As from the sun and Saturn are in hostile aspect, the moon. The moon is in trine with the sun. All things should prosper with the undertakings and them that bring knowledge to on their undertakings.

An excellent period to begin new undertakings, especially in business. Open stores, offices or shops. Begin those works which are to end in success. Hire men for labor or clerical duties. Deal with landlords, farmers, gardeners or rymen.

Buy or sell real estate or houses. Consult surgeons, physicians or dentists. A lucky day for men using sharp weapons, instruments or tools.

A good day for persons engaged in making preparing foodstuffs, medicines and wearing apparel.

Women with this birthdate may be called during the twelfth month to assume a quarrel with one of whom they love.

Men with this birthdate will probably have opportunity during the twelfth month to extend business interests greatly.

The indications that stand over children by day are for the attainment of high positions. will be very ambitious and may gain an unusual success in a high field. Boys will probably much money after middle life and succeed in of their undertakings.

Soldiers For Servants. "The moment of reserve soldiers," and some ladies claimed that she was filled with electricity and that, failing to secure food, she had stood near the restaurant all night in order that the energy from her might supply power for the restaurant lights and thus permit the dining of the hungry patrons of the place.

The former, pretty little woman was seen to the Police Station. There she was taken to Dr. Wright. After examination, the surgeon suggested that she be kept until her case was cleared up. She was sent to the City Jail, where she was held until the morning. She was found by Patrolman Dennis yesterday morning.

Mrs. Jennie Fowler, 45 years of age, was arrested by Patrolman Dennis yesterday morning and locked up at the City Jail pending an investigation. For more than eight hours the woman had crouched near the doorway of

cheap restaurant longing for the warm food that was being served to the patrons of the place and sick with the pangs of hunger.

The officers arrested her when she was found crouching in the doorway of the restaurant, and she was taken to the City Jail, where she was held until the morning. She was found by Patrolman Dennis yesterday morning.

UNNECESSARY.  
OMAN INSA  
FROM HUNGER.  
PROUD TO BE SHE WALKS  
STREETS FOR DAYS.  
Crouches Beside Restaurant All  
Night Until Found by Police  
With Her Reason Wandering.  
Unfortunately Cared for and Sent to  
County Hospital.  
Driven Insane by Starvation. Mrs.  
Jennie Fowler, 32 years of age, was  
arrested by Patrolmen Denman and  
Seefeld, shortly after daylight yester-  
day morning and locked up at the  
City Jail pending an investigation.  
For more than eight hours the wom-  
an had crouched near the doorway of  
a cheap restaurant longing for the  
warm food that was being served to  
the patrons of the place and sick with  
the pangs of hunger.  
When the officers arrested her she  
explained that she was filled with elec-  
tricity and that, failing to secure food,  
she had stood near the restaurant all  
night in order that the energy from her  
body might supply power for the  
restaurant lights and thus permit the  
serving of the hungry patrons of the  
place.  
The officers, sickly little woman was  
taken to the Police Station. There she  
told her story to Dr. Wright. After  
examination, the surgeon suggested  
that a meal might be given to the woman  
and she was sent to the jail dining-  
room. She ate enough to satisfy a  
man, great quantities of ham and  
steak disappearing as soon as put be-  
fore her.  
The woman was sent to the in-  
sane ward at the County Hospital.  
There she will be kept until her case  
taken up by the lunacy commission,  
complaint charging her with in-  
sanity was sworn to yesterday by Pa-  
trolman Denman.  
The woman's case is a pitiful one.  
The mother of plenty she was com-  
pelled to enter such want and priva-  
tion that her mind collapsed beneath  
the strain. The little woman walked  
the streets day and night, suffering  
from torture because her pride kept  
her from asking help from those about  
her. She was a widow, the mother of  
a son, and until her reason failed and she  
became demented.  
Mrs. Fowler is a widow. She has a  
son, but the boy is too young to sup-  
port his mother. She attempted to  
earn her money by retelling quar-  
rels on South Figueroa street near  
her home. She did any kind of work she  
could find in order to pay the small  
rent for the one room. This was finally  
taken from her. By court process, last  
week Mrs. Fowler's room was de-  
clared vacant. An officer went to the  
room and threw the poor furnishings  
into the street.  
Feeling helplessly and hopelessly  
the woman was compelled to wit-  
ness the devastation of her home. Ac-  
cording to her story she has had nothing  
to eat since Monday. She spent  
that last night for a piece of bread  
butter and a cup of coffee. With  
nothing to sleep and nothing to eat,  
she walked the streets all night  
until dawn, and until lack of sleep  
and fatigue undermined her rea-  
son.  
Yesterday night, she took her stand  
in front of a restaurant on  
Broadway near Sixth street. Through-  
out the night she remained there  
waiting for the patrons of the place  
and the patrons of the place she  
waited for.  
An officer asked her to go home. She  
refused to leave the small, thin shawl  
about her shoulders and dropped  
into her position near the door.  
After daylight the patrolman  
came and took the woman up for in-  
vestigation. She followed readily,  
not knowing where she could secure  
anything to eat.  
THREE ARIZONA DAYS.  
Preparations for Annual Outing  
of the Hassayampa Club of Los Angeles.  
The Hassayampa Club of Los Angeles  
will have its annual celebra-  
tion in Los Angeles on the 20th,  
21st and 22nd insts. On these three  
days 100 or more residents and ex-  
tra guests of the Territory will gather  
at the Hassayampa Club's reunion.  
The Hassayampa Club's reunion  
celebrations have been enjoy-  
able events, and as many as 600 have  
attended the annual banquet, but this  
year's assemblage, from positive as-  
sessment, will exceed by far the greatest  
of the past.  
Invitations were sent  
to the Governors of Arizona  
and California, the Mayor of  
Los Angeles, the Chief Justice and  
the Judges of the Supreme Court, the  
California Senators, Congressmen and  
other delegates. The railroads have  
made a one-way rate for the round  
trip, and all who possibly can  
attend the festival, and all who  
have home to come will do so. A  
number of former Arizonians  
now living here, many retaining  
interests in the Territory,  
will attend the program.  
The program is as follows:  
Thursday, August 20, re-  
union at 2 p.m., by the Los Angeles  
Club. At 8 p.m., the an-  
nual banquet will be held at the Ho-  
tel. The fact that the Arizona people  
have been making headquarters there  
for so long, and the fact that the  
majority of the club, and manager of  
the club, is preparing a series of  
entertainment and events for the enter-  
tainment of the club and the public.  
The first inst., there will be  
a picnic at Redondo Beach. Special  
trains will run on the Los Angeles &  
San Diego Railway. Luncheon will be  
served in the Spanish garden. On  
Friday night the Arizonians will at-  
tend a musical concert. There will  
be a special train. The committee will  
be in Los Angeles to meet arrange-  
ments. Assisting the committeemen is  
a committee of sixty ladies, four rep-  
resenting each county in Arizona.  
The Hassayampa Club's officers are  
as follows: Charles A. Shannon, pres-  
ident; Alonzo Bailey, vice-president; Dr.  
G. A. Schroeder, treasurer; John S.  
Mitchell, secretary, all now residents of  
Los Angeles.  
The club's purposes are the cultiva-  
tion of friendship among the Arizona  
visitors and among the former Terri-  
torial residents as well as the promo-  
tion of good feeling and closer rela-  
tions between the Territory and South-  
ern California.  
FICTITIOUS CHECKS.  
Accused of passing more than a score  
of fictitious checks, J. L. Sullivan, a  
solicitor, was arrested last night while  
waiting for a street car at the Los An-  
geles-Pacific station. For nearly two  
weeks complaints have been made to  
the police about Sullivan but no trace  
of him could be found. He is charged  
in one instance with passing a check  
amounting to \$7 on the proprietor of  
the Del Rey restaurant.  
NEW MOONSTONE BEACH.  
HUNTINGTON BEACH. Aug. 6-  
Large quantities of moonstones are  
now being found here in the gravel  
which has during the past few days  
covered the sand. It seems as though  
the quality of the beach is gradually  
changing from a sand to a gravel sur-  
face.

UNNECESSARY.  
OMAN INSA  
FROM HUNGER.  
PROUD TO BE SHE WALKS

made a one-way rate for the round  
trip, and all who possibly can  
attend the festival, and all who  
have home to come will do so. A  
number of former Arizonians  
now living here, many retaining  
interests in the Territory,  
will attend the program.  
The program is as follows:  
Thursday, August 20, re-  
union at 2 p.m., by the Los Angeles  
Club. At 8 p.m., the an-  
nual banquet will be held at the Ho-  
tel. The fact that the Arizona people  
have been making headquarters there  
for so long, and the fact that the  
majority of the club, and manager of  
the club, is preparing a series of  
entertainment and events for the enter-  
tainment of the club and the public.  
The first inst., there will be  
a picnic at Redondo Beach. Special  
trains will run on the Los Angeles &  
San Diego Railway. Luncheon will be  
served in the Spanish garden. On  
Friday night the Arizonians will at-  
tend a musical concert. There will  
be a special train. The committee will  
be in Los Angeles to meet arrange-

**Robinson Company**  
Boston Dry Goods Store  
235-237-239 So. Hill St. 234-244

M'CALL'S SEPTEMBER PATTERNS MAGAZINE AND CATALOGUE HERE NOW.  
WE fill mail orders carefully and promptly and pay charges on all packages amounting to \$5.00 or over to points  
within 200 miles of Los Angeles.

**\$10.00 Poplinette Jumper Suits \$5.00**  
About the handiest garments imaginable are jumper suits; these, of  
fine poplinette, are unusually appropriate for wear just now, and  
their price is cut squarely in two, because we do not want to carry  
any of them over into the fall season:  
Poplinette jumper suits, white with pink poplinette bands, or pink, with white bands; very smart  
styles, with full skirts; well worth \$10 each,  
specially priced at **\$5.00**

**Guaranteed Petticoats \$5**  
Whenever we receive a shipment of  
these splendid guaranteed silk petti-  
ticoats, they're snapped up in  
almost no time by women who  
know how truly economical their  
purchase is:  
Every one guaranteed for three months' sat-  
isfactory wear; every one a good style, and here in  
black, white, navy and all popular  
shades as well **\$5.00**

**Clean Your Own Gloves**  
Here is a very easy way to save  
glove cleaning bills—by doing the  
work yourself with these two  
splendid cleaners, to be had at the  
Glove Section:  
Art Gum is a neat trick to be rubbed upon soiled gloves  
and will remove perfectly all surface  
stains; it costs only **10c**  
Gloves in a liquid cleaner for the same purpose  
and costs for a large bottle, only **25c**

**Special August Sale Summer Furnishings**  
More real bargains from an immense Rug and Drapery Section that is  
daily making new friends with its unusual value-giving:  
An assortment second to none hereabouts, of hammocks, garden seats, camp stools, porch furniture, folding cot,  
draperies, porch shades and rugs of all styles suitable for  
summer use, at very special prices—30c to **\$8.75**  
For Friday and Saturday—if they last that long—white ruffled muslin curtains,  
2 1/2 yards long, 75c values specially priced at **35c Pair**  
Hand embroidered door panels, some shown in a Broadway  
window; regularly \$1.25, for **65c Each**  
Oriental striped portieres (a pair will make an excellent couch cover);  
regularly \$1.50, for **75c Pair**  
Manufacturers' lace curtain ends; some 2 1/2 yards long;  
while they last, specially priced at **15c**  
Matted remnants, 15c yd.; flannel **35c Yard** Carpet samples, 1 1/4 to 1 1/2 yards  
long, **50c**

**Muslin Skirts Reduced**  
Some of the prettiest muslin petticoats we  
ever had in stock came to us under value a  
week or so ago, and we pass the saving  
along to you:  
Skirts are made of fine nainsook, English longcloth and  
cambric, neatly trimmed with lace and embroidery:  
\$1.00 Skirts are **\$1.00 each**  
\$4.00 Skirts are **\$3.25 each**  
\$6.00 Skirts are **\$4.00 each**  
\$10.00 Skirts are **\$6.75 each**  
\$12.00 Skirts are **\$8.50 each**  
\$15.00 Skirts are **\$10.00 each**

**Black Silk Bargains**  
We use that word bargain advisedly, for black  
silks of the high quality invariably sold over  
our counters, are bargains at regular fair  
valuations. When we lower prices on the  
selfsame grades, you are offered inimitable  
opportunities for economical buying. A few  
prices must serve to indicate many:  
36-inch Satin Majestic, value \$1.75, now **\$1.50**  
36-inch Satin Majestic, value \$2.00, now **\$1.75**

53. EARL CLARK, Carpinteria	1,445
54. RAY CAMPBELL, Glendora	1,410

GOOD cheer came to the scholarship headquarters yesterday, and to the soldier boy contestant in particular, from W. S. Livengood, now contest manager of the Duluth News-Tribune, who managed the Times annual contests for three years, and who shows a warm interest in the young workers, each succeeding season. Mr. Livengood is a prince of good fellows, and has written the following letter in regard to the exciting scholarship race now in progress:

"As manager of the Times annual contests for the years 1903-3-4, I had many delightful experiences, and formed many warm friendships with the young people who participated in these campaigns for education. I have watched the subsequent careers of most of the prize winners, and am pleased to observe that most of them have made excellent use of their opportunities, and are now profiting largely by the education obtained as the result of the scholarships they so valiantly contended for and won.

"Since my removal from Los Angeles (which, however, I still consider as my home city), I have had the Times follow me wherever I wandered, and am gratified to know how much it means to the young people engaged in these annual contests to be favored with the votes allowed on prepaid subscriptions. I

have taken occasion each year to renew my subscription while the contest is in progress in order to gain the privilege of helping some deserving boy or girl to win a scholarship. I see by the wrapper on my paper that my time for the biggest and best \$5 worth of reading matter on earth is about up; therefore I am sending my check to renew my subscription for another year.

"As all of the boys and girls engaged in the contest this year are strangers to me, I have no particular favorites. They are all very deserving. I know, from what I have read of them in the daily contest reports, and my only regret is that I cannot take out a year's subscription for each one of them. However, in compliment to the gallant old veterans at the Soldiers' Home, I have decided to give my votes to the 'Soldier Boy.' I remember what keen interest the old soldiers always took in the contests, and I feel that I have ever conducted the enthusiastic reception given the scholarship winners and their friends by the veterans of the home at the close of the contest of 1904, when a visit to the Soldiers' Home was part of the programme of entertainment provided for the contestants who participated in that memorable campaign. My heart always beats warmly for the brave men who saved our Union, and I am for a candidate to whom they are

giving their support this year, both in the scholarship contest and in the Presidential campaign, for I am convinced that the saviors of our Union will almost unanimously vote for Hon. William H. Taft.

"I record my votes in favor of the 'Soldier Boy,' and convey to him my best wishes for his success.

Yours truly,  
[Signed] "W. S. LIVENGOOD."

**SEE OF THE DIMPLES.**  
The little Catholic girl, Celeste Benton, was another to rejoice with exuberance yesterday, for she gained nearly 300 points through the kindness of Rev. Father Clement Molony of St. Agnes Church who not only gave a year's subscription to aid Celeste in winning her scholarship at the beautiful Immaculate Heart College at Hollywood, but also persuaded Rev. Father Reardon of Long Beach and Rev. Father Quinlan of San Diego to do likewise. "Celeste of the Dimples" was the happiest girl in the city yesterday over her good fortune.

That champion scorer, Mary Pearl Pottol, who has set her heart on going to school at Huntington Hall, registered a gain of nearly 500 yesterday, including five annual subscriptions. Two of the Monrovia girls' subscriptions were not marked old or new, and the rules governing the scholarship demand that such as have no distinguishing mark shall be counted old. Later they may be proven new by the contestant and the points restored.

Ruth von Kirbach, the Brownberger girl, jumps Lizzie Shapiro, this morning. Both young girls did fine work yesterday, only Ruth happened to gather in a little more than Lizzie.

Mary Pearl Pottol goes ahead of Leo Domke and takes away his cherished fifth place, and this in spite of the splendid score that Leo turned in the day before to which Mr. Mickey of Herman Brothers contributed materially.

Leon Riesenberger of Pasadena is forging to the front. He added in nearly 300 points yesterday, including a new annual subscription; while Glenn Anderson, the other fine fellow working in the Crown of the Valley, made a big gain yesterday, with a large quota of new business, including two new six-month subscriptions.

**HUNTINGTON HALL.**  
Abstract of the latest educational thought, Huntington Hall has just completed arrangements for covering the first two years of college work in its post-graduate courses. Students completing these will be accorded entrance in the junior year at the leading eastern colleges and at Berkeley and Stanford. This prominent girls' school is the only one in the West now offering this advanced instruction to students.

The principal, Miss Housel, goes to Europe each year and is in touch with the foremost educators of the country with whom she confers as to new methods and ideas advanced in the educational world. She is demanding the highest standards of her instructors, each of whom holds the degree of B.A., M.A. or Ph.D. from eastern colleges and European universities. She has lately made the additional requirement of European travel and experience.

The head of the French department is a native Paris and a university woman who returns to Paris each year for new ideas and inspiration. She uses the European classical method, and those preparing for college and the inductive method for those wishing simply to acquire fluency in conversation. Systematic physical training is given every student in the school. All corrective work is done in the indoor gymnasium, but best development is found in the outdoor games—hockey, tennis and others—for which the extensive grounds (the former Chiles homestead, corner Eleventh and Main streets) afford ample opportunity. Following the English idea, the girls are supervised by a "mistress of games."

Herr Thilo Becker, assisted by Miss Bertha Wilbur, has charge of piano instruction, and Miss Marthine Dietrichson, who has studied for four years under the eminent master, August Benvenuti in Rome, heads the vocal departments. Pupils in both vocal and piano are prepared directly for leading masters in Europe, thus avoiding months of preliminary work abroad.

A unique feature of Huntington Hall is the preparatory course for European travel, which makes future tours in the old world both pleasant and profitable. If a girl is not going to college she is advised to take this course.

As Paris school is also carried on by Miss Housel, and a plan for European study has been devised which is highly approved by college professors and presidents. This fall at the Paris school there will be three college graduates carrying on historical research work under the Huntington Hall supervision. This school is situated in the most desirable quarter of Paris, overlooking the Trocadero. Here students of music have the opportunity of study with the best masters and equal social advantages. A course of lectures has also been arranged, covering questions of ethics and travel and literary, political and sociological subjects.

Besides the valuable scholarships for which the young people are working, the Times offers fifteen cash prizes for those making the highest scores next to the top liner, who will receive the prize piano. The cash prizes totaling \$100 are arranged as follows:

No. 1	\$300
No. 2	140
No. 3	120
No. 4	110
No. 5	100
No. 6	90
No. 7	80
No. 8	70
No. 9	60
No. 10	50
No. 11	45
No. 12	40
No. 13	35
No. 14	30
No. 15	25

**SALOONISTS THROW EGGS.** Mob Assaults Republican Procession Because "Dry" Candidate is at the Head.

**INDIRECT WIRE TO THE TIMES.** LITCHFIELD (Ill.) Aug. 6.—(Exclusive Dispatch.) Numerous indignation meetings were held here and at surrounding points today because a mob of saloonists last night at Mt. Olive, a wet town near by, rotten-egged Capt. David Davis. He is the local option candidate of Litchfield for the Legislature and was marching at the head of a Republican procession, in which the assailants bespattered the American flag with mud.

In the parade were 100 members of the Republican Club here, including ex-Congressman Rives, all of whom were pelted and pelted with eggs, mud, lime and empty bottles. When Capt. Davis mounted a box, and waving the flag, appealed for law and order, the box was kicked from under him and the flag bespattered and torn into shreds. Others were slightly injured. Damage suits will be instituted.

## OWENS RIVER.

(Continued From First Page.)

work there is finished and his assistants are busy engaged organizing the construction crews.

"We have received orders from the Board of Public Works to rush the work on the Owens division," says the chief engineer. "Those orders are very welcome at this time, as I have been growing a bit restive myself to get started at the actual mileage construction on the aqueduct. The amount of preparatory work has been something enormous. On the desert there were mountain roads to build, water to locate and pipe for twenty or thirty miles, power plants to construct, power lines to build and a mass of lesser detail."

"Now we are in a position to make a report each month of the actual mileage construction. We are doing better on the Elizabeth Lake tunnel than we expected. The crew at the south portal is now averaging eleven feet in twenty-four hours. We are sinking a shaft and will soon be attacking the face of the rock in four places at the same time. We could do even better than that, but it is now so arranged that the big tunnel will be finished by the time the rest of the aqueduct is ready."

**BIG BILL GETS THERE.** Engineer Mulholland hesitates to discuss the prowess of the dredger which the men have christened "Big Bill," a sort of joint compliment to the engineer and to the Republican nominee. Big Bill is an invention of Engineer Mulholland and his assistants. It is said to be the most successful dredging machine ever operated in the West.

"Mr. Mulholland thinks as much of that dredger as though it were his baby," said a pretty girl stenographer in the aqueduct offices yesterday afternoon.

The dredger is now operating between Black Rock Springs and the Alabama hills. The photograph accompanying this article shows the machine at work and a portion of the completed canal. The dredger is floating in the canal; the stretch of water is just as it will appear when the great conduit is finished. This part will not be walled in with concrete, as it is fed by underground springs.

**MILLION AND HALF LOAN.** W. B. Mathews reports that the city will receive \$1,500,000 in bond money by September 1. All the bond proceedings so far have been pronounced regular by Dillon & Hubbard, the New York bond experts, and the problem now is to rush the construction work so that the money can be paid out as fast as received; it will require some rush work to keep the millions from accumulating in the treasury and drawing interest.

The Board of Public Works will take up with the Board of Education the question of opening schools at the big construction points on the aqueduct. Engineer Mulholland has asked that arrangements be made at once for opening a public school at the south portal to the aqueduct.

"There are about enough children there now to fill one school room," said Mr. Mulholland. "We are trying to encourage men to bring their families and locate at the points where we shall be working for several months. We have built some modest cottages at Tehachapi by the cement plant; these will be rented to the city's employees at a nominal price."

Mr. Mulholland says that in this way the city gets a better class of workmen than by taking only men who will board in the construction camps.

**CHAMPAGNE BATHS.** London Beauty Says Wine and Eau de Cologne Are the Best Invigorators.

**SPECIAL CORRESPONDENCE OF THE TIMES.** LONDON, July 15.—London is responsible for the invention of the now famous "lemon bath" which are said to have done so much for the complexion of Queen Wilhelmina of Holland. A well-known West End beauty specialist tells me that she was the first to "try it on" her customers.

"But," she added, "for invigorating the system temporarily and doing away with fatigue there is nothing to touch a bath of champagne and eau de Cologne. It will do as much as a week-end visit to the country or a five-hour trip in a balloon. I give them on the premises and they cost from five to fifteen guineas. I sometimes use nine big bottles of champagne and four quarts of eau de Cologne for one bath. A little while ago I gave several of these to a prospective American bride who had been so utterly worn out with the gaieties of the season that all her beauty was gone. A couple of these baths restored animation to her face and brightness to her eyes. In her case, which was a very bad one, I also administered oxygen."

"Of the 'flower bath' I also make a feature. Roses, mignonette, lavender and heliotrope all play an important part in it. Earlier in the year I used a great deal of wall-flowers which gave forth an exquisite aroma. Though not generally known this odor has a highly sanitary effect of its own. I steep the flowers in a certain spirit which takes out all the essence and this is poured into the bath."

Another of Madame's specialties is "pearl dust" which is obtained from crushed pearls and is supposed to give great brilliancy to the neck and arms.

**COLTON.** COLTON, Aug. 6.—Harry, the two-year-old son of Mr. and Mrs. George Prens, had a wonderful escape from death last evening. The child was playing on the Santa Fe tracks, near his home on E street. A switch engine came slowly up the track, the engineer, not noticing the baby, which was thrown to the ground between the rails. The engine passed completely over the child, who escaped with only a few scratches and bruises.

The telegraph office, formerly located at the southern Pacific passenger station, and Colton yard office have been combined, and are now installed at the new office in the freight depot. Heretofore six operators have been employed, whereas by the new arrangement only three are retained—W. L. Pearson, Bert Doty and Thomas Pickley.

T. J. Fleming of Los Angeles and City Engineer McIntyre of Riverside inspected the Colton cement plant yesterday.

Mr. and Mrs. M. C. Butterfield are enjoying an outing at Catalina.

## Manco Salmon

-the best thing in the picnic basket-

Packed fresh from the icy waters of Alaska. There's more real enjoyment and satisfaction in "Manco" Salmon sandwiches than in anything else you can put in the picnic basket.

It has a rich, distinctive flavor that satisfies the cravings of the appetite as nothing else will.

And it's so easily prepared and inexpensive—it's more economical than meat.

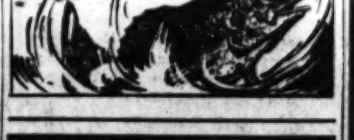

If you have "Manco" Salmon in the home—you are never caught unprepared for company.

You can serve it just as it comes from the can—or scalloped, or creamed, or in a score more ways.

But don't let your grocer tell you that he has some other salmon "just as good"—he hasn't. Insist on having "Manco."

15c, 2 for 25c and 20c cans

**25 Years**

hence, according to Prof. Edmunds of New York, we have a population in this country of 145,000,000 souls, and by the middle of the century we will have 200,000,000 from the natural increase alone. Personally, I think Mr. Edmunds' calculations are too optimistic, but it is reassuring to hear a population of 170,000,000 without crowding. I'd hate to be crowded out of Christopher's by density of population. I guess we have enough population to hold us for a while. I think that quality is much more important than quantity, although you can get both in the candy specials at Christopher's every Friday and Saturday. By the way, I must phone in an order for a leasestride pudding for our Sunday dinner. There is nothing quite like a Christopher's leasestride, so I'll get in my order early."

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

## NATURAL OUTCOME. SLEW OUTLAW; IS ACQUITTED.

Justice of Peace Goes Free at San Bernardino.

Juryman All Congratulate Him on Verdict.

Opium in Watermelon Kills Man in Joint.

(BY DIRECT WIRE TO THE TIMES.)

SAN BERNARDINO, Aug. 6.—[Exclusive Dispatch.] After one of the most notable trials in the country's history, Stanley W. Houghton, justice of the peace for Oro Grande, was tonight acquitted by a jury of the murder of the unknown Hartman in June. The jury was out less than two hours and that period more than half was in deliberation.

The verdict was received in silence in the half-filled courtroom. It came quickly that most of the people who crowded the room. In the afternoon, Houghton returned from upper Judge's court had warned the spectators that a demonstration after the reading of the verdict was not unusual.

EXPECTED THE VERDICT.  
Houghton had little to say. He said he expected the verdict. He will to leave for Los Angeles for a day with his aged parents, and will return to his duties as superintendent of the cement plant at Oro Grande.

The jury deliberated five times. The ballot was nine to three for acquittal. The next three were eleven to two for acquittal and then came the decisive vote. The verdict was announced in the juryroom. There was a demonstration among the crowd which could be heard all over the courtroom.

KILLED AN OUTLAW.  
The verdict was received with satisfaction here, where Hartman had been known for many years as a border outlaw and outcast. He had no respect for law and cost the county in the twenty-five years many thousands of dollars in court trials. The killing of Hartman by Houghton followed the conviction of the former for attempting to kill his step-daughter, which was justice of the peace, to which he had been appointed.

OPIMUM IN WATERMELON.  
The police believe they have uncovered a murder mystery in the death of H. N. Nite. An attorney today showed a man died from opium poisoning. The drug being in the stomach in large quantities. Rosa Trimble, the prosecuress of the "joint" where the man died, is under arrest. She is also an inmate of the house. Both of the crime, the drug, and the man, being administered in the watermelon, which was given to him to eat. Several other persons are being detained as witnesses, and it is expected that the man who was lodged against one or both of the women. The coroner's jury today gave a verdict of opium poisoning.

Best bathing and boating at Coronado.

SUCCESS.  
BIG MONEY IN DRY RANCHING.

JACINTO CAPITALIST HAS SPLENDID SUCCESS.

Mr. J. C. Max, a prominent ranchman and capitalist of San Jacinto, has just received a check from a 40-acre tract of grain land in the Imperial valley.

Mr. Max is not in any way an undeveloped land. A year ago Mr. Max purchased this section of land, and as soon as the fall rains began he had it plowed and seeded to barley. The crops have been received and Mr. Max reports that his gross receipts are more than the cost of the land and he is looking for more grain to buy. Experience of the past few years has demonstrated that grain land is profitable and that it pays the owner to own his land rather than rent for a share of the crop.

KEEP OFF.  
Per the first time since the San Jacinto Mountains became a favorite hunting ground for deer, a great deal of the territory has been closed to hunters. R. F. Garner, who purchased the famous Thomas ranch two years ago, has notified the hunters that the ranch is now closed to hunting and that no game of any kind is to be hunted on the three ranches and has heavily stocked with cattle. In the past, the ranches have been heavily hunted by deer and other game, and Garner has given his men strict orders to have trespassers arrested on first offense, regardless of past offenses. "I have extended the game," says Mr. Garner, "and I have my best friends permit me to hunt upon my lands." Residents

Mr. Garner feels that for this reason alone he is justified in prohibiting all hunting.

SHERMAN COMES BACK.  
Anton Sherman, for many years a prominent lumberman of this place, returned Tuesday from Germany where he has resided for the past five years. He at one time owned practically the entire lands now belonging to the Imperial Mountain Resort Company, and sold out to that concern for \$10,000. He made a fortune in the lumber business in the mountains. He has returned to this country to reside permanently.

STOCKMEN ANXIOUS.  
Fred E. Clark, a prominent cattle man of Aguanga, reports that the past week was the hottest in the mountains since he located there twenty-five years ago. The extreme hot weather is having a tendency to dry up the ranges at a rapid rate, and stockmen are anxious for heavy showers to restore the grass to its normal condition.

Indian Superintendent Stanley returned Tuesday from Riverside with Frank Cline, whom he had been looking for since early in June, on a charge of selling liquor to Indians. Stanley had a personal encounter with Cline some time ago, while attempting to arrest him in the act of giving whisky to a redskin, and it is likely a charge of assault will also be placed against him.

PERSONAL MENTION.  
Roy L. B. Anderson has as guest E. F. Green of Monrovia.

WOMAN ON PEAK.  
Cashier C. L. Emerson and wife and H. C. Malone were members of a party to visit the San Jacinto Peak this week.

Miss Mabel Poinder of Los Angeles, who has been the guest of the Misses Woodhead for the past ten days, returned to her home Wednesday.

Miss Maude Frost was given a linen shower at the home of Mrs. John H. Dunn on Wednesday afternoon, in recognition of her approaching marriage.

Antonio Domenigoni, Feta Domenigoni and Ben Garbani left Wednesday morning over the Santa Fe for Switzerland, to be absent about three months.

Arthur Hudson, who has been visiting C. B. Woodhead at the American Stock Farm for the past week, has returned to Los Angeles.

B. A. Brenner, manager of the San Jacinto Hot Springs, reports more than fifty guests at that resort.

G. T. Daggett has sold his two-story brick block on Main street to D. I. Lambert of Los Angeles.

Roy Copeland has sold ten acres of pasture land on North Central avenue to R. J. Rouleau, consideration \$500.

Coronado most popular of resorts.

IMPERIAL VALLEY.

ASK THAT WATER RATE BE FIXED.

SETTLERS PETITION SUPERVISORS AT EL CENTRO.

Mutual Water Company Directors Oppose Setting of Official Standard Fearing It May Be Detrimental to Their Contracts—Rancher Seriously Hurt in Runaway.

(BY DIRECT WIRE TO THE TIMES.)  
EL CENTRO, Aug. 6.—[Exclusive Dispatch.] Deep interest is taken by settlers all over Imperial Valley in the meeting of the Imperial County Board of Supervisors today to hear the petition asking the establishment of a water rate. It contained fifty-eight names of free holders of Imperial Valley and was deemed sufficient by the Supervisors to cause them to proceed with the hearing. The petitioners are represented by J. B. Eldridge, an attorney of San Diego.

The Mutual Water Companies of Imperial Valley have contracts with the California Development Company, whereby the latter is to furnish them with water for irrigation at 50 cents per acre foot for an unlimited time. Landholders who have not purchased stock in any of various mutual water companies desire service from the California Development Company, and the latter is to furnish them with water for irrigation at 50 cents per acre foot for an unlimited time.

The Supervisors this afternoon ordered subpoenas issued for the secretaries of all the water companies of the valley, so that they may testify as to how much their concerns have paid in the past six months for water to the California Development Company. They have also ordered subpoenas for F. C. Hermann, chief engineer of the California Development Company, with an order for all books and documents showing cost of construction and maintenance of the company's sixty miles of canals in the United States.

If the Supervisors fix an official rate, it must allow the California Development Company at least 4 per cent profit on its investment, and may allow as high as 15 per cent. The company's assessment on the tax rolls of Imperial county for all property is \$104,658.

The case will be continued at 10 o'clock tomorrow. Representatives of mutual water companies from all parts of the valley are assembled here awaiting the outcome.

INJURIES MAY BE FATAL.  
David Storms, a well-known Imperial Valley rancher, was probably fatally injured this morning in a runaway near his home at Silbee. Storms was thrown before a front wheel, shoved along several feet, and then both front and back wheels passed over his abdomen. He was brought to Central Hospital here and his relatives summoned. He sustained serious internal injuries.

Coronado Agency, 324 S. Spring st., H. F. Norcross, Coronado Agent.

MONEY FOR CLERGYMAN.  
Anahiem Pastor One of the Beneficiaries Under Will of Rich Massachusetts Woman.

(BY DIRECT WIRE TO THE TIMES.)  
ANAHIM, Aug. 6.—[Exclusive Dispatch.] Rev. Beale M. Wrenn of this place is one of the beneficiaries of the \$700,000 estate of the late Mrs. Caroline M. Barnard, the woman philanthropist of Everett, Mass. His bequest is \$12,000.

Much of the estate is left to educational, religious and charitable institutions. A half dozen clergymen are also mentioned for various sums.

## BIG BEETS; REAL SWEETS.

Huntington Beach Saccharine Products Yield Rich Returns.

HUNTINGTON BEACH, Aug. 6.—From a fourteen-acre tract here, Louis Borchard has averaged this season twenty-two and one-half tons of sugar beets to the acre. For the last two days his crop has tested on an average 20 per cent, or \$6 a ton.

More than 400 tons of beets were shipped from the local dump yesterday and the shipments for the week have averaged fully 400 tons a day. They are remarkably large and the quality is excellent. Taking this and the Wintersburg dump together, the average shipments to the factory have been 500 tons a day.

SIMPLY AWFUL.  
SOCIETY BEER GARDEN SHOCKS.

WOMEN'S CHRISTIAN TEMPERANCE UNION AGHAST.

Santa Barbara's Four Hundred Disappears Boats for Sweet Charity's Sake, but Without License, and Blue Ribbonists Threaten to Make Trouble—Lineman Hurt.

(BY DIRECT WIRE TO THE TIMES.)  
SANTA BARBARA, Aug. 6.—[Exclusive Dispatch.] Trouble over the selling of beer in a German beer garden in the St. Cecilia Club's fair at the Arlington Hotel, here may be precipitated by the local Women's Christian Temperance Union. The latter organization declares that because the club officials failed to secure a license to sell intoxicants, they are fracturing the law and should be hauled up by the authorities.

The beer garden in question is being operated by society people of Santa Barbara, who in fact are running the whole show. The St. Cecilia Club is affiliated with the local Catholic Church. Its objects are for the support of hospital wards and a nurses' cottage. This year the annual fair has broken all precedents for its uniqueness and among the chief features was the beer garden, beautiful to look upon and costly enough to its patrons, but all the same selling beer without a license.

Local authorities have made no move to stop the beer selling and the temperance women claim that the authorities are winking at the infraction because the proceeds are for charity. Trouble may be averted by an appeal to the police and the Mayor.

FALLS ON LIVE WIRES.  
C. C. Fitts, sub-foreman of the Edison Electric Company, was probably fatally burned this afternoon when he caught hold of a live wire while working at the top of an electric light pole. He fell into a network of live wires through which 2200 volts were passing, and remained unconscious. His assistant, A. B. Weale, working on the same pole, quickly cut the heavily charged wires and fell Fitts heavily to the ground, leaving him for dead. Fitts, who is 23 years and was secretly married, was hurried to the hospital, where it was believed he may not recover. He was unconscious tonight.

A treat, a week at Coronado.

RUSHING THE BRIDGE.  
New Structure Over Santa Ynez River, Near Lompoc, Being Hurried to Completion.

LOMPOC, Aug. 6.—At the next meeting of the Companies of the Foresters the following officers will be installed: Chief Companion, Mrs. R. Moore; sub-chief companion, Miss Rose; recorder, recorder and secretary, Miss Lizzie Horn; guide, Little Hicks; inside guide, Dennis Daily; outside guide, Edward Elmer.

Work on the steel bridge over the Santa Ynez River is progressing rapidly. Material is being hauled to the Dyer Crossing at the rate of four loads a day. The structure will be completed before the early rains set in.

J. T. Loring, vice president of the Southern Pacific Milling Company, has been here looking after company's interests.

Mrs. Addie Harris has purchased the Lester Moore property on North E street, and with her family will occupy it for a home.

A. Gerallum, who is representing capitalists of Los Angeles, has been here in the interest of a gas company. If arrangements can be made a plant will be installed, in which case a cooking school, with competent teachers, will be maintained for the instruction of the users of gas.

Two 10,000-gallon tanks for the Graham Oil Company are being built by Walter Smith of this city. A third tank of 10,000 barrels capacity will soon be completed for the same company. These are the first tanks of this size in this vicinity.

Why suffer here? Try Coronado.

REDLANDS.  
REDLANDS, Aug. 6.—A long-distance telephone line from Redlands Junction to El Paso, Tex., costing approximately \$250,000, is to be built this fall. The contract has been let to Charles A. Roff, who is identified with the Southwestern Home Telephone Company of this city. On account of the excessive heat crossing the Colorado desert it is not to be begun until later in the year. This will be the longest single telephone line in the West, and because of the extra quality of material to be used, it will be perfect insofar as transmission of sound is concerned. Extra heavy wire weighing 42 pounds to the mile is to be used. About 50,000 poles will be required.

Miss M. E. Shattuck has as her guest Baron Katsumi Utsumi, a former Japanese Minister of Foreign Affairs, and also her brother, Frank A. Shattuck. For the past three years he has been a teacher of English literature and mathematics in the University of Keio, Japan. They will spend two months in traveling in the United States.

My Fee In All Uncomplicated Disorders  
PAY ME WHEN CURED

## My Fair Offer To Men

My treatments for other diseases peculiar to men are also along original lines and are equally successful. I have cured many cases of contracted disorders, which have been up against doctors who have failed to cure them. I have cured many cases of contracted disorders, which have been up against doctors who have failed to cure them. I have cured many cases of contracted disorders, which have been up against doctors who have failed to cure them.

## I Cure "Weakness"

"Weakness" is not a nervous disorder, demanding a tonic system of treatment, but is merely a symptom of chronic inflammation or congestion in the prostate gland. This condition exists as a result of early dissipation or some improperly treated contracted disorders, and requires carefully directed local measures only. By my own original method, the prostate gland is quickly restored to its normal state, which results in full and complete return of strength and vigor. My cures are permanent because the condition responsible for the functional disorder is entirely removed, and I am convinced that by no treatment other than my own carefully directed local measures is a radical cure of this ailment possible.

## Contracted Disorders

The serious results that may follow neglect of contracted diseases could be scarcely exaggerated. Safely demand an absolute cure in a radical and most possible time. I have treated more cases of contracted disorders than any other physician upon the Pacific Coast. My cures are thorough and are accomplished in less time than treatment requires in procedure of other doubtful results. I employ remedies of my own devising, and my treatment is equally effective both in recent and chronic cases.

## Consultation and Diagnosis Free

I do not charge for advice, examination or diagnosis. If you call for a private talk with me, you will not be urged to begin treatment. If impossible to call, write.

## Weakness

Functional weakness in men is in reality a comparatively simple ailment, and is but a symptom of local disorder, a state of chronic inflammation of the prostate gland. No stimulating treatment, whether internal or locally applied, can do more than excite temporary activity. My local treatment restores absolutely normal conditions throughout the organs involved, which promptly results in permanent restoration of strength and vigor. This treatment is the only radical and certain cure of weakness.

The above together with ORGANIC WEAKNESS, LOSS OF VIGOR, SPECIFIC BLOOD POISON, STRUCTURE, CONTRACTED DISORDERS, AND REFLEX ALLMENTS CONSTITUTE OUR SPECIALTY AND ARE THE ONLY DISEASES WE TREAT.

WE HAVE BEEN ESTABLISHED IN LOS ANGELES FOR SIXTEEN YEARS AND HAVE THE LARGEST PRACTICE.

# MILL RUNS FOR A YEAR.

Montana-Tonopah Plant Has Made Good.

Greenwater Shows a Flicker of Life.

Leak in Telegraph Agitating Brokers.

MR. F. Douglas, vice-president of the Montana-Tonopah Mining Company of Tonopah, Nev., left on Wednesday for San Francisco, from which point he will proceed with his family to Missouri. He says that his company encountered the dacite intrusion, which has cut off the Tonopah bonanza ore-shoots, at the 440-foot point nearly three years ago and that it was finally penetrated at the 750-foot level. Fifteen feet below that point the earlier dacite, or ledge-bearing formation, was prospected, with the result that a thirty-foot ledge of oxidized ore was encountered, giving values of \$4.98 per ton—too low for commercial extraction on a profitable scale. Development of this ore body will be undertaken in a thorough manner in the near future and it is hoped that the former experience on the Comstock lode, where the bonanza ore bodies were picked up again at a great depth, will be repeated.

The forty-stamp mill erected by the company has been running practically without cessation for the past year and is an absolute success in handling silver sulphide ore. It has a capacity of approximately 120 tons a day, and has so far been fed from the accumulation of ore placed on the dumps during the development era, at a cost less than half of the former hauling charges under the earlier conditions. The method in use is concentration, repulping by tube mills and cyanidation by the Hendry's agitator process. The mill was erected from the plans and under the supervision of Francis L. Bosqui, the well-known metallurgist and mining expert, who is now erecting the large plant of the Goldfield Consolidated Company at Goldfield.

The annual meeting of the company will be held at Tonopah on the second Tuesday in September, and it is expected that the report will show that the operations of the mill for the past year have paid all the expenses of mining, together with the initial expenses of installing the mill plant. The property was originally purchased by Charles L. Knox, who consolidated the holdings of forty-one owners in fifteen claims, and who occupies the position of president of the present company.

**Greenwater Still Alive.**  
James Casey, for the past eighteen months in charge of operations of the Furnace Creek Copper Company in the semi-desert camp of Greenwater, passed through the city yesterday on his way to Spokane, where he will remain for the next few months accompanied by his family. He says that there is some slight encouragement apparent in the recent developments in Greenwater and that the Greenwater Death Valley Company, prospecting at the 1000-foot level, has about four feet of copper-stained quartz that will probably pay in the neighborhood of four or five per cent. The Furnace Creek Copper Company's shaft has reached the 750-foot level and is still being put down with a small force of men. It is the intention to prosecute the work to the 1000-foot level and cross-cutting will be undertaken at that level.

**Booth Advances.**  
The sudden demand for Booth stock on the local and San Francisco mining stock exchanges directs attention to a Goldfield issue that has remained unnoticed practically for a year. The company owns property immediately northwest of the city of Goldfield, and is controlled by Senator Nixon and George Wingfield. The Consolidated Red Top lease, recently granted upon the westernmost portion of Consolidated ground, has uncovered a large body of rich ore and has succeeded in tracing it to the fault which is known to exist on the ground. At the present time the face of the lease workings is within 120 feet of the Booth line; there is little doubt that the ore-body will be picked up within the latter's domain when work is resumed. George Wingfield, who is now in charge of the Alexandria Hotel, is authority for the statement that development on a large scale will be resumed this week, or early next. Meanwhile those who are in the "know" are picking up all the stock that is offered and it is believed that the issue will see much higher figures within the next few weeks. It is very closely held, with a large majority in the hands of the Nixon-Wingfield combine. San Francisco speculators took the stock up to 40 cents on Wednesday's market.

**Brokers Agitated.**  
Brokers on the floor of the Los Angeles-Nevada Stock Exchange have been much agitated of late on account of discovery of serious leakage in the private wire system of the institution and consequent proof that several brokers have been profiting surreptitiously thereby. The method involved the connivance of two or three retired telegraph operators who hung around the space partitioned off for the Western Union employees and carried the news of buying and selling orders to the secret finally leaked out. It was learned that there are three such keyhole operators at work and they have been carefully watched by detectives in the employ of the exchange for the past few days. As a result the tickers are now being muffled and, unless the practice is swiftly stopped the booth will be moved to a remote part of the exchange quarters.

**Superior to Lemonade.**  
Horeford's Acid Phosphate. A teaspoonful added to a glass of cold water, with sugar, makes a delicious summer tonic.

**WILMINGTON.**  
WILMINGTON, Aug. 6.—The Chamber of Commerce is getting ready for effective work as the new development begins. It will consider questions of public improvement, harbor interests, advertising the resources of the city and its advantages, and look out for industries to locate here. At the regular meeting last night the following standing committees were appointed: Manufacturing Industries, T. W. Lincoln, W. S. Moore and J. Schneider; Streets, E. W. Sanderson, Jr., F. S. Cary and H. Schneider; Harbor, F. S. Cary, H. E. Grannaw and D. Mulcarron; Advertising, T. W. Lincoln, G. Gannaw and J. Schneider.

The First National Bank of Belle Plaine, Minn., was closed yesterday by order of the Comptroller of the Currency. The bank was reported insolvent, followed by the suicide of its president, J. G. Lunde. George C. Hall was appointed receiver.

### STAKES CROP ON CARDS.

(Continued From First Page.)

of the deck and turned the bottom card upward. Mrs. Hart had won the deal. She shuffled the deck lightly and sent the trumping card down the table to the polished table as she rapidly dealt the four hands. Hearts were trumps.

The contrast of the whist game and the picture of the whist game was picture.

The Nelsons settled deep down in their chairs and scowled blackly at the cards. They were almost blind with worry much about what partners are doing. They hang to the trumps to the last and bring them in with a thundering volley. Leads and returns and signals are unexplained mysteries.

They played with their heads down in their chairs and scowled blackly at the cards. They were almost blind with worry much about what partners are doing.

When Mrs. Hart dropped a duce to the table, the Nelsons only looked at it with mild indifference and moodily returned to their cards. Mrs. Hart's hand, the Nelsons glared with triumphant triumph.

Out in Nevada, you don't lead an honor unless it's the ace. If a Nevada man leads a queen, you suspect him of selling you out.

But to Mrs. Hart's husband it was the whist experts' signal that the lady held four honor cards.

**LUCK VS. SCIENCE.**  
For about thirty-five points, that whist game was like a tiger cat fighting a bear. This fancy whist strategy was too much for Nevada. The Nelsons plugged doggedly along—continually losing.

Every time the bell boy came out with an empty ice water pitcher, the summer people fell upon him and learned the same thing.

that young-looking fellow—has a bunch of trumps you couldn't stuff into a trunk, and SHE hasn't got nuthin' but duces 'n three spots.

**TENSE SITUATION.**  
No more rings came for ice water, but the situation got so tense that one of the summer girls snatched up a pitcher of ice water; thrust it into the bellhop's hands, and fairly shoved him into the house again.

He came out with eyes starting from his head.

"Them fellers 'll pass her sure in the stretch; they ain't got nuthin' but trumps; they are gaining a lap every minute."

The game had now become tense. They were almost blind at forty points. All four players were outwardly cool and self-contained; between hands, they exchanged a few words of light talk as indifferently as though they were playing for topkicks.

**MAKING IT BLACKER.**  
When they were almost neck and neck, Mrs. Hart, who was keeping score, appeared to make an extra mark opposite the Nelsons' names.

"Excuse me, Mrs. Hart," said one of the Nevada men gallantly; "but I think you have given us one point too many."

"Oh, no," said Mrs. Hart, smiling; "I was only making one of your score points blacker."

From the thirty-fifth point, at which time the Harts were way ahead, luck turned blindly for the Nevada men. It seemed though they couldn't hold anything but trumps.

Mrs. Hart and her husband struggled splendidly; everything known to whist science was thrown out to block the blind, headlong luck of the desert men.

At forty points, they were even. Then the real struggle began. The Nelsons shot ahead; then the Harts slowly fought their score up.

A few minutes before 1 o'clock in the morning, an avalanche of trumps seemed to fall into the Nelsons' hands. They made a brilliant finish, scoring 60 to the Harts' 47.

The big game was over. They all sat back and exchanged glances. Texas, through the State Health Department, has established a rigid yellow fever quarantine against Mexico, an outcome of a recent tour of the republic by Dr. E. A. Eaves, of the State Health Department. Dr. Eaves reported yellow fever to exist at Vera Cruz, Laguna and other points.

How would the woman "take" the loss of \$15,000 by four points? Without a sigh or an unpleasant word, Mrs. Hart swept the cards from the table; brushed off her dress and slightly yawning.

"Aren't you tired? Now you must all be my guests at a little supper!" she said lightly.

"Honest truth," said one of the Nelsons, yesterday, "we were ashamed to beat, but the cards all seemed to come our way."

**WILL DISCUSS MILK.**  
Pure Food Officials and Medical Men Will Talk on Important Topic at Meeting.

**OCEAN PARK, Aug. 6.**—With a view to the improvement of the food supply of the cities of Southern California, the State, county and municipal health officers of this section of the State will hold a public meeting aboard the ship Cabrillo in Venice tomorrow night.

The movement is designed to educate the people, and participating in the deliberations will be members of the Pure Food Commission and the medical societies, as well as duly authorized guardians of the public health. Several physicians from Los Angeles and other nearby cities are expected to attend tomorrow night, when the discussion will deal largely with the milk supply and its purity.

Health Officer Black of Pasadena will read a paper on some health topic, which will be taken as the subject of discussion. Secretary George H. Kress of the Pure Food Commission will be among the speakers and is expected to discuss the food and milk supply, which he has recently stated was in need of attention at the beach cities.

Texas, through the State Health Department, has established a rigid yellow fever quarantine against Mexico, an outcome of a recent tour of the republic by Dr. E. A. Eaves, of the State Health Department. Dr. Eaves reported yellow fever to exist at Vera Cruz, Laguna and other points.

"Tis not so much HOW much you pay—'Tis what you GET for what you pay."

**Dainty Willow Furniture**  
For Sun Parlors, Bed Rooms, Living Rooms

WILLOW furniture is artistic and dainty, and has those qualities which impart an air of both cheerfulness and refinement to the atmosphere of the well furnished home.

In its natural or stained in the brown or green, so widely favored when upholstered in the pretty cretonnes it is much in comfort-producing qualities as well as harmonizing most advantageously where these materials are used for draperies.

By visiting our display in this line you may see the very best productions in a large variety of upholstered furniture—rockers, arm and reading chairs, fireside chairs, length steamer chairs, tables, etc. Notice our window showing as you pass our store.

We carry also the choicest gathering of upholstered materials suitable for use with this class of furniture, and also for drapery purposes. Our facilities for work along this line are fully adequate. Prices and charges are impressively fair here.

**Los Angeles Furniture Co.**
